

A highly innovative and technically skilled statistician and computer scientist, adept at analysing requirements and developing efficient, practical solutions. Brings strong programming and computer expertise, with a proven ability to ensure data integrity and adapt across diverse technical environments.

Skills, Languages & Technologies

- Web and Android Software Development, Source and Version Control, Basic and Advanced Linux handling, IT Automation and Scripting, Database Management, Technical Support, Analytical thinking and Problem-solving.
- C, C++, Java, JavaScript, Python, Bash, and SQL; Vanilla, React, React Native, Redux, Flask, Flask RESTful, Django, and Django REST.
- MS Office Suite, Visual Studio, AnyDesk, Microsoft SQL Server, Eclipse, NetBeans, X-Code, Android Studio, Postgres, Figma, Puppet, Git and GitHub.

Experience

JULY 2024 - MARCH 2025

St. John's Community Centre, Murang'a – Data Assistant

- Entered and validated child protection data using the Child Protection Information Management System (CPIMS), ensuring accuracy and completeness.
- Analysed data trends and generated actionable insights using MS Excel and CPIMS to support informed decision-making.
- Oversaw daily office operations and ensured proper maintenance of equipment to support a smooth working environment.
- Managed and documented child protection cases with attention to detail and confidentiality, contributing to effective case follow-up and resolution.

MAY 2022 - PRESENT

Renotech Systems, Nairobi – ICT Officer (Part-Time / On-Call)

- Design and develop Android applications for POS payment terminals, enhancing system functionality and user experience.
- Consult on POS terminal solutions and produce clear, user-focused documentation to support implementation.
- Maintain in-house software systems and provide on-call technical support to ensure reliable performance and client satisfaction.

OCTOBER 2023 - PRESENT

BetIQPro - [project link](#)

- A React-Native-based utility application for providing sports insights. Demonstrates ability in CRUD, JavaScript, React, and Redux.

AUGUST 2020 - PRESENT

PrismApp - [project link](#)

- A utility application for printing messages (automatic and on request) and other message-based functionalities. Demonstrates CRUD, UI and Java ability.

Certificates

APRIL 2025 - AUGUST 2025

Microsoft SC900 Certification

- Foundational knowledge of security, compliance, and identity (SCI) concepts and related cloud-based Microsoft solutions.

Microsoft AZ104 Certification (Azure Administrator Associate) - Ongoing

- Demonstrate key skills to configure, manage, secure, and administer key professional functions in Microsoft Azure.

JULY 2023 - SEPTEMBER 2023

Google Data Analytics

- Introduction to navigating tools & platforms to process, analyse, and visualise data.

JULY 2022 - DECEMBER 2022

Google IT Automation with Python

- Using Python to automate common & advanced system administration tasks.

OCTOBER 2023 - JANUARY 2024

GAO Tec Inc., Canada – *Remote Technical Support Intern (Promoted to Team Leader)*

- Promoted to Team Leader during the internship in recognition of leadership skills and performance.
- Trained in Technical Support and Digital Marketing, gaining hands-on experience in troubleshooting and client communication.
- Demonstrated proficiency in WordPress, computer programming, Microsoft Office Suite, and MS Teams.
- Led a team of interns and used Google Sheets to allocate, manage, and track tasks, enhancing coordination, productivity, and accountability.

AUGUST 2020 - APRIL 2022

Android POS Kenya, Nairobi – *Application Developer*

- Utilised Android Java and Graphic Design technologies to develop new applications and their UI components.
- Developed and implemented custom client solutions.
- Aided in SDK consultation and support.
- Provided code maintenance and system upgrades to maximise performance, feature updates and fixes.

AUGUST 2018 - DECEMBER 2018

Andela, Nairobi – *Junior Software Developer*

- Developed and maintained streamlined, well-documented code for distributed cloud environments, following TDD.
- Helped design and create intuitive graphical user interfaces.
- Engaged in complex code bases in team collaboration.

Education

SEPTEMBER 2016 - AUGUST 2024

Murang'a University of Technology, Murang'a – *B.S Mathematics and Computer Science*

- Statistical Mathematics
- Basic and Advanced Computing

Personal Projects

– For more, visit my [GitHub Account](#)

FEBRUARY 2024 - PRESENT

TicketPouls – [project link](#)

- A ticket booking system application that allows users to specify ticket types and receive emails after a reservation. Demonstrates CRUD, JavaScript and React ability.

JULY 2022 - SEPTEMBER 2022

Google Foundations of Project Management

- Introduction to developing essential project management skill sets and business acumen.

JUNE 2016 - AUGUST 2016

Web design and development

- Trained in website creation and general functionalities.

JANUARY 2016 - MAY 2016

International Computer Driving License

- Demonstration of competence in the use of computer applications.

Languages

English

- Full Professional Proficiency

Swahili

- Full Professional Proficiency

Interests

Environmental conservation, home gardening, football fanaticism and gaming.
